

# NAVANEETH SHERI

Aspiring Data Analyst | B.Sc. Data Science Student  
9398493237 | nvnthsheri14@gmail.com | LinkedIn | GitHub | Portfolio

## PROFILE

B.Sc. Data Science student preparing for Data Analyst internship and entry-level opportunities. Hands-on practice with SQL, Python, Pandas, NumPy, MySQL and data-analysis projects, with a focus on cleaning data, querying datasets and communicating useful insights.

## EDUCATION

**B.Sc. Data Science** — Osmania University  
Indian Institute of Management and Commerce (IIMC), Hyderabad | Expected June 2027

## SKILLS

**Programming & Data:** Python, Pandas, NumPy, SQL, MySQL

**Analytics & BI:** Excel, Power BI, Tableau

**Other:** Data Cleaning, Data Analysis, Data Visualization, GitHub

## INTERNSHIP EXPERIENCE

**Data Analyst Intern — Elevate Labs** | Remote | Aug 23, 2026 – Present

- Completed project-based data analyst tasks involving SQL, data analysis and business-oriented datasets.
- Practiced querying, aggregation, revenue analysis, category analysis, monthly revenue and order-volume analysis.
- Applied data-analysis concepts to practical internship assignments and documented work on GitHub.

## PROJECTS

**SQL Data Analysis** — SQL, MySQL

- Analyzed business data using filtering, sorting, GROUP BY, aggregations, revenue analysis, category analysis, monthly revenue and order volume.

**Customer Personality Analysis** — Python, Pandas, NumPy

- Explored a customer marketing dataset, inspected data types and missing values, practiced data cleaning and exploratory analysis.

**Superstore Data Analysis** — SQL, Tableau

- Analyzed the Sample Superstore dataset to explore sales and category-level performance and derive business insights.

**Python Mini Projects** — Python

- Built Student Marks Manager, Library Management System, Expense Tracker, ATM Simulator and Student Record Management System to practice Python fundamentals.

## GITHUB PROJECT LINKS

- Task 1 — Data Analyst Internship
- Task 2 — Superstore Analysis
- Task 5 — Titanic Analysis
- Library Management System
- Expense Tracker
